Robeson	19,621	22.8	1,703	1,059	165	5,804	169
Sampson	23,938	17.6	1,986	1,366	192	6,357	141
Scotland	21,722	20.6	1,151	815	110	4,605	156

1. A dash (-) indicates county had no resource of the type stated. Practitioners are by county of practice October 2005.
2. Active federal and nonfederal physicians in general or family practice, internal medicine, pediatrics, and obstetrics/gynecology. Physicians providing very little direct patient care are excluded.
3. Physician extenders are nurse practitioners and physician assistants, each weighted as .66 of a physician and added to the number of primary care physicians.
4. Active federal and nonfederal.
5. Based on county of residence. Rates are per 1,000 population, excluding estimated military in Cumberland, Onslow, Craven, and Wayne counties. Numerators are provisional 2005 discharges from nonfederal hospitals located in North Carolina. Normal newborn babies are excluded. Only North Carolina residents served in North Carolina hospitals are included. Counties with a large percentage of patients leaving North Carolina for hospital care are: Camden, Caswell, Clay, Currituck, Dare, and Gates.

Table 7 Part 2 - Economic and Health Resources Data

<http://www.schs.state.nc.us/SCHS/data/pocketguide/2005/table7b.html>

County	2004 - Percent of Births to:			Medicaid (State Fiscal Year 2004-2005)		
	Medicaid Mothers ⁶	Health Department Mothers ⁷	WIC Mothers ⁸	Percent of Total Population Enrolled	Per Capita Expenditure	Expenditure per Medicaid Enrollee
North Carolina	48.8	21.0	39.1	18.3	\$885	\$4,836
Bladen	69.4	36.0	54.2	30.3	\$1,587	\$5,244
Brunswick	62.3	28.3	50.4	19.6	\$895	\$4,577
Columbus	71.0	29.4	55.1	32.1	\$1,752	\$5,463
New Hanover	48.4	26.1	37.4	15.6	\$859	\$5,495
Pender	55.2	31.2	43.1	19.4	\$921	\$4,748
Robeson	77.6	24.9	53.2	34.5	\$1,693	\$4,908
Sampson	73.0	37.4	55.0	26.4	\$1,229	\$4,662
Scotland	71.6	36.9	62.4	33.3	\$1,540	\$4,618

6. Measured by Medicaid payment for hospital stay of the newborn.

7. Percent receiving some prenatal care at a health department; percents for some counties may be low due to patients going to a public clinic not reporting data to the Health Services Information System.

8. Percent on WIC in prenatal period.

Table 7 - Demographic, Economic and Health Resources Data

<http://www.schs.state.nc.us/SCHS/data/pocketguide/2005/table7c.html>

**NC RESIDENT AIDS CASES AND RATES PER 100,000
POPULATION, 2001-2005**

RESIDENCE	TOTAL AIDS CASES	RATE PER 100,000
NORTH CAROLINA	5,151	12.2
BLADEN	24	14.7
BRUNSWICK	37	9.0
COLUMBUS	51	18.7
NEW HANOVER	178	20.9
PENDER	20	9.1
ROBESON	127	20.2
SAMPSON	35	11.2
SCOTLAND	22	12.2

Prepared by NC-DHHS State Center for Health Statistics
[\(www.schs.state.nc.us/SCHS/\)](http://www.schs.state.nc.us/SCHS/)
Note: Rates based on small numbers (Fewer than 20 cases), should be interpreted with Caution.

Supplemental Data for South Carolina:

***Total Reported AIDS Cases, 2004**

Horry County, South Carolina: 502

***Total Reported AIDS Cases by Gender, 2004**

Horry County, South Carolina:

3,324 Female, 23%

10,864 Male, 77%
